

Transportation Manufacturing and Assembly Solutions

Saunders offers comprehensive converting services for the transportation manufacturing industry. From automotive and aerospace to specialty vehicles, we help manufacturers improve efficiency with custom solutions that solve complex challenges.

Custom Solutions for Transportation Applications

Automotive

- Panel bonding and trim attachment
- Masking solutions for painting or coating
- NVH solutions for ICE and electric vehicles
- Sealing and gasketing solutions

Truck, Trailer and RV

- Panel bonding, mounting and assembly
- Adhesive tape solutions that eliminate rivets
- Lightweight solutions that cut fuel costs
- Custom decals and label printing

Aerospace

- Industry-certified processes and materials
- Solutions to reduce component weight
- Panel bonding for fixed or removeable panels
- Hook and loop fasteners for floors or seating

Marine

- Watertight panel bonding
- Lightweight bonding solutions
- Custom solutions for dashboards
- Adhesive solutions for protective awning materials

We do all this and so much more! Work with us for your next project to see how we can improve operational efficiency and product quality, and reduce costs for your business.

Complete converting capabilities

- Adhesive Bonding
